

Transfer Marker

Traditional line marking at its best, offering years of trouble free dependable service. Excellent results achieved on natural and artificial turf. Available in 5 different line widths.

Preparations for Use

The *Supaturf* Transfer Marker will arrive to you ready for use.

Transfer marking is by far the simplest method of applying lines onto grass. The concentrated liquids can be used diluted or undiluted. Varying the dilution ratio will also achieve varying results.

It is easier to dilute the liquid in a clean bucket and then pour it into the machine.

At the lower front of the machine body you will find an adjustable scraper blade to prevent excessive build-up of grass clippings and debris. The thumbs screws on either side of the transfer wheel are guides only and should have a clearance of approximately one millimetre to allow the wheel to float on the marking and pick up wheels. Commence line marking.

Once line marking has been completed, tilt machine back over a container and open ball valve to drain any leftover liquid from the machine (we recommend that you go over the lines to use any remaining liquid rather than storing as the shelf life is greatly reduced once it has been diluted or contaminated)

Clean the machine with cold water using a cloth or plastic scourer for harder to clean areas. Store machine ready for its next use.

Transfer Marker - Parts

Part No	Description	Code
1	Starlock Washer	S/W
2	Wheel	WHEEL
3	Axle Left/Right	TM/A
4	Drain valve (not shown)	D/V
5	Body + Lid	TM/CH
6	Inner Bracket Left/Right	TM/B1
7	Outer Bracket Left/Right	TM/B2
8	Marking / Pick up Wheel Axle x2	TM/S
9	Marking Wheel	TM/MW
10	Pick Up Wheel	TM/PUW
11	Transfer Wheel Guide x 2	TM/WG
12	Splash Guard	TM/SG

Transfer Marker - Parts

Part No	Description	Code
13	Scraper Shaft	TM/SS
14	Scraper	TM/SC
15	Transfer Wheel	TM/TW
17	Handle Bar Brace x 2	HB/B/P
23	H/K - Female + Screw	HB/B/S

Transfer Marker - Parts

Part No	Description	Code
18	Hand Knob - 12mm	H/K/12
19	Washer	M12x3
20	Handle Bar	TM/HB
21	Handle Bar Grip	HGB
22	Hinge	TM/H
5	Lid (supplied with body)	TM/CH
