For details of reels go to Page 11.

FULL SPECIFICATION AVAILABLE ON [www.sisis.com](http://www.sisis.com)

**These heavy duty scarifiers are equally at home when used for regular routine use at a shallow setting or a deeper setting when required. They also contribute to aeration and compaction relief by cutting clean, continuous slits to assist water and air absorption. The 600HDX is ideal for use on tough warm season grass species.**

**Unique features:**

- Contra rotating reels with specially designed tipped blades for a clean consistent performance
- Quick change reels for ultimate thatch control and removal all year round
- User friendly operator presence controls designed for maximum operator safety
- 6 forward speeds for efficiency under varying conditions and depth
- Reverse gear for manoeuvrability
- Incorporates independent drive to the wheels and reel
