## **TECHNICAL DATA SHEET**

# **BOSTON CONTACT CLEANER**

## Description

Boston Contact Cleaner is a technically proven high purity solvent that cleans oil, dirt, flux residue and condensation from sensitive electronics and electrical equipment. It rapidly penetrates hard-to-reach areas and dries quickly without residue. It is non-staining, non- corrosive and has rapid evaporation.

## **Application**

Perfect for cleaning electrical equipment including relays, switches, circuit breakers, alarm and signal systems, printed circuit boards, connectors, generator, lab and test equipment, video heads and drums.

#### **Directions**

Deactivate the equipment from the power source before use as this product is flammable. Never use on energised equipment. Test product on small area of surface to be cleaned as this product may be harmful to some plastics. Spray liberally to allow run off. After cleaning, ventilate and allow complete evaporation before reactivating with electrical current.

## Storage/Shelf Life

Store in a cool place out of the sun. Do not store above 50°C

## **Specification**

Propellant: Hydrocarbon

## **Health & Safety**

Aerosols should be completely empty before disposing. Recycle can if facility available or place in household rubbish. Always use in a well-ventilated area and avoid prolonged breathing of vapours. If sprayed in eyes flush with water.

## Limitations

Protect painted surfaces from overspray. If contact with painted surfaces is made, wash off immediately with water. Do not spray on energised equipment. May be harmful to some plastics, always test before use.

## **Packaging**

350-gram aerosol can 12 units per outer carton 864 half pallet 1728 full pallet

### First Aid

Please refer to the Safety Data Sheet which is available at www.cwbrands.com.au/
